Portfolio: mansoordairkee.github.io/Portfolio-profile

PROFILE

Recent BCA graduate with hands-on experience in software development, data structures, algorithms, Python, JavaScript, Java, SQL, and AI-assisted development. Experienced in building production-ready web applications, applying data mining and classification concepts, and solving analytical problems. Passionate about improving AI systems through code evaluation, prompt engineering, logical reasoning, and high-quality technical writing. Seeking remote AI training opportunities where I can contribute strong programming and analytical skills.

EDUCATION

Bachelor of Computer Applications (BCA) Aug 2023 – 2026

Manipal University, Jaipur | Completed

- Coursework: Data Structures, DBMS (MySQL), Software Engineering, Computer Architecture, Data Communication & Protocols, Data Mining & Visualisation (KNN, Clustering, Classification), Intelligent Systems

All India Senior School Certificate Examination (Class XII) 2023

All India Secondary School Examination (Class X) 2021

Carmel Convent Senior Secondary School, Neemuch

EXPERIENCE

Frontend Web Developer Intern Jul 2025

Tayyabi Stores – Remote

- Designed and shipped the company's first digital sales channel — a responsive e-commerce front end for one of Neemuch's largest plumbing retailers — within a 4-week sprint.
- Built reusable UI components in HTML5, CSS3, and JavaScript; optimised performance via lazy loading and semantic HTML and ensured cross-browser and mobile compatibility.
- Translated stakeholder requirements directly into wireframes and final UI, delivering pixel-accurate, brand-aligned screens.
- Worked with AI-assisted development tools including Cursor, Claude, and Trae AI to accelerate development workflows.

PROJECTS

MediLocate – Healthcare Facility Finder

HTML, CSS, JavaScript, Geolocation API, REST APIs

- Developed a location-aware web application that helps users discover nearby hospitals, clinics, and pharmacies in real time using the browser Geolocation API.
- Implemented distance-based sorting and category filtering, returning results within a configurable radius for faster decision-making in emergencies.
- Designed a mobile-first, accessible UI ensuring usability across low-bandwidth networks common in Tier-2 and Tier-3 Indian cities.

HealthCheck – Smart Symptom Threat Analyzer

Python, JavaScript, Text Classification, Web Development

- Built a symptom-analysis web application that classifies user-entered health symptoms into three risk levels (Low / Moderate / High) using keyword and sentence-level matching.
- Designed a simple, accessible interface enabling non-technical users to perform a preliminary self-assessment in under 30 seconds.
- Applied data classification principles from coursework (KNN-style matching, keyword weighting) to a real-world health-tech use case.

LEADERSHIP & ACTIVITIES

Technical Director Aug 2025 – March 2026

The Cypher Club, Manipal University Jaipur

- Lead a team of student developers to organise workshops, hackathons, and tech talks; mentor juniors during technical events.

Hospitality Director – Elysium 2.0

IEEE WIE Club, Manipal University Jaipur Feb 2026

- Coordinated guest experiences and on-ground hospitality operations, collaborating with the team to ensure smooth event execution while managing real-time responsibilities and challenges.

Kagglethon Participant – College Data Science Competition Oct 2024

- Applied data science skills in a competitive setting; gained hands-on experience in feature engineering, model selection, and evaluation under tight deadlines.

TECHNICAL SKILLS

- **Languages:** C, C++, Python, Java, Kotlin, SQL
- **Web:** HTML5, CSS3, JavaScript, Responsive Design
- **Tools & Platforms:** MySQL, Git, Linux, Windows
- **Concepts:** DSA, OOP, DBMS, Software Engineering, Data Mining
- **AI-Assisted Development:** Lovable, Replit, Trae AI, Claude, Cursor

CERTIFICATIONS & INTERESTS

- Kotlin Programming – Google Developers (5 badges)
- Data Mining – NPTEL
- Advanced Learning in Marketing for Entrepreneurship
- Getting Started with Cisco Packet Tracer – Cisco Networking Academy
- Networking Essentials – Cisco Networking Academy
- Introduction to Modern AI – Cisco Networking Academy
- Introduction to Cybersecurity – Cisco Networking Academy
- Linux Essentials – Cisco Networking Academy
- AI on AMD – AMD AI Academy
- **Automotive Industry & Performance Engineering** – Analyse car specifications, evolving EV trends, and global automobile market dynamics.
- **Fitness & Strength Training** – Regular gym training focused on discipline, consistency, and performance improvement.
- T**eam Sports (Football, Volleyball, Badminton)** – Actively participate in competitive outdoor sports, demonstrating teamwork and strategic thinking.
